

Tools and Technology at eXp Commercial

At eXp Commercial, we're committed to providing our advisors with state-of-the-art technology to grow their business. Take a look at what we offer below and talk to an eXp Commercial Advisor for more information.

Buildout*

Buildout provides database, pipeline reporting, and back-office tools, enhancing your entire deal cycle in a single platform. When you choose Buildout, your expert profile and property listings will be displayed on the eXp Commercial website and syndicated to more than 20 listing sites.

RealNex*

RealNex provides software and data solutions for CRE professionals, offering tools for property listing, financial analysis, and transaction management.

Business Broker CRM*

Business Broker CRM was built by business brokers for business brokers to boost productivity and deal-making by offering tools for real-time client communication, deal tracking, schedule management, data organization, and online collaboration with fellow brokers.

Moody's Analytics CRE

Moody's Analytics CRE offers integrated insights, analytics and enriched data to CRE professionals. Built on trusted, validated data, dynamic analytics and extensive research programs, Moody's Analytics CRE helps institutions gain efficiencies and drive growth in CRE.

AIRCRE

AIR CRE is a unique application of customizable commercial real estate contract templates, including Purchase and Sale, Lease, and Listing agreements.

*Advisors can choose one of the three options provided.
